- Photoshop

Employment

Dominos - *Delivery Driver*

Sep 2013 - Aug 2017

★ Answered phone calls and Interacted with 20+ customers a day from many diverse backgrounds.

★ Delivered 30+ pizzas and satisfied a vast majority of customers with great customer service.

US Foods - *Order Selector*

Aug 2017 - Oct 2018

★ Coordinated with associates to develop strategies and lower production time.

★ Efficiently assembled 12+ pallets a day and met daily quota.

Projects

Chat Room

Created a server for the app using node js. Deployed the website with Heroku. App made using front-end and back-end technologies. (Github)

Tag Searcher

Utilizing Instagram's API, built a program that displays photos tagged with a specific hashtag.

Alarm Clock

Crafted a fully functioning alarm clock web app. Thoroughly documented the code and made it easily readable for others .

Calculator

Built a basic calculator from the ground up, and used a functional programming style to get the calculator running smoothly. Cunningly used the console to workout the many bugs encountered.
